

**SMART**ways aims to promote:

**walking, cycling, car sharing,  
public transport and  
healthy activity within  
North Lanarkshire**

Travelling in and around North Lanarkshire couldn't be easier, healthier and more environmentally friendly thanks to SMARTways.

**SMARTways**, which can be accessed at the touch of a button via North Lanarkshire Council's website, provides a wealth of information and best practices aimed at promoting alternative and healthier methods for travel within the area.

**SMARTways** includes information on Walking, Cycling, Public Transport, Car Sharing and Healthy Activity within North Lanarkshire in line with the Scottish Government's 'Choose Another Way' campaign.

**SMARTways** also introduces North Lanarkshire to 'Travel Plans' and explains how these can benefit the health and wealth of residents and companies. Travel Plans can also assist in protecting the environment for future generations to enjoy by reducing the volume of traffic using our roads.

**SMARTways** is not anti car - on the contrary, it recognises that the car is an essential part of every day life. SMARTways aims to reduce the number of single occupancy journeys and this can be achieved by car sharing or using other methods for your journey.

By logging on you will find information under the following sections:

- Residents
- Businesses
- Schools & Colleges

Information is also available on:

- SMARTways Maps
- Public Transport

So log on to SMARTways today and 'choose another way' to travel in and around North Lanarkshire.
