What is the Common Housing Register (CHR)?

The North Lanarkshire Common Housing Register is a partnership between North Lanarkshire Council and partner Registered Social Landlords (Housing Associations and Co-operatives) who have social rented housing stock in the North Lanarkshire area.

The CHR lets you apply for social rented housing owned by any of the partner landlords by using just one application form. Information from your application form will go on a register, which each of the partner landlords can access. If they consider you for housing, they will award you a priority according to their own allocation policy. Offers of housing will depend on the level of priority you have and your needs and preferences about the area and the type of housing available to let.

You can get housing advice from any of the CHR landlords. This advice can include information on choosing an area, types of housing available, size of housing required and so on.

Who can apply?

You can apply for housing in North Lanarkshire using this form if you are aged 16 or over. This includes people applying from inside and outside the North Lanarkshire area as well as current tenants who want to transfer to other accommodation or register for a mutual exchange (house swap). However, if you have come to Britain from abroad it is possible that the Council will not be able to consider you for housing.

If you are homeless or think you may become homeless in the near future

Contact any of the council offices on the back page of this document. They will assess your housing situation and give you advice about your housing options.

Home Ownership

A property can be owned by the applicant or another member of their household who is currently living with them or someone who is intending to live with them. This is not restricted to property in Scotland or even the UK, but could be any property which is owned (or previously owned) by the applicant or a member of their household or proposed household and includes ownership of land (and anything built on that land) as well as the actual property itself. There are some circumstances where a landlord cannot take account of property ownership.
