Issue 5 - June 2025

Exciting progress at St Stephen's Community Hub

Community Hub Update

The initial stages of construction for the new community hub have been completed. These have included the installation of a temporary car park, playground & staff facilities along with the demolition of the existing school's admin wing.

During this period works have been progressing south of the school, but completion of the initial works has allowed full commencement of the permanent Community Hub works.

Construction of the structural steel frame will commence in the coming months, followed by the installation of the roof and external walls.

To view further details about the new development and the overall Town and Community Hub programme please [Click Here](#) or alternatively scan the QR Code below.

Timescales

» **Construction Start:** March 2025

» **Facility Opening:** Q4 2026

Community and Social Benefits

Our Social Value delivery programme continues with Hub South West Scotland and Morrison Construction continuing to engage within local schools, colleges, and the wider community.

In recent period, a sod-cutting ceremony marking the start of the new Community Hub development was attended by pupils and Head Teacher of St Stephen's Primary, along with Convener of Education Michael McBride.

Additional community engagement activities are planned for the upcoming period. Morrison Construction have delivered Health & Safety presentations and a poster competition with pupils from St Stephen's Primary School.
