Issue 7 - November 2025

St Stephen's Community Hub – building steady momentum

Community Hub Update

Construction of the new community hub continues to progress well. External walls and roofs are progressing at pace allowing significant elements of internal works to progress.

Over the coming months, electrical connections will be installed to support construction of the new facility. This connection will support the internal fit-out phase, which relies on the provision of power, water and communications to progress construction activities.

The project remains on schedule, and we look forward to sharing further updates as key stages are achieved.

To view further details about the new development and the overall Town and Community Hub programme please [Click Here](#) or alternatively scan the QR Code below.

Timescales

Time-scales noted below:

- » **Const Start:** March 2025
- » **Facility Opening:** Q4 2026

Planned Operations

Subject to approvals, various elements of work will take place along Sikeside Street and Shiel Place. Directly related to the new facility these will include:

- New electrical infrastructure – 01st – 15th December 2025
- Road and Pedestrian upgrades – 05th January 27th February 2026

Every effort will be made to complete the work as quickly and efficiently as possible.

Community and Social Benefits

Our Social Value delivery programme continues with NLC, Hub South West Scotland and Morrison Construction continuing to engage within local schools, colleges, and the wider community.

In forthcoming period Morrison Construction will support the Construction Skills Jobs Fayre, attend NLC Pathways Taster Day, continue with Young Reporter sessions whilst continuing involvement with apprenticeship opportunities.
