-  NLC Boundary
-  Less than 1 %
-  1 - 3 %
-  3 - 5 %
-  5 - 10 %
-  10 - 30 %

Notes:

1. Within the council boundary, the action levels of radon are primarily less than 1% with discrete pockets of elevated radon potential between 1% and 30%.
2. In Scotland, basic radon protection is required for areas with maximum radon potential between 1% and 10%, and full protection is required for areas with maximum radon potential above 10%. No remediation is required for areas with maximum radon potential of 1% or less.
3. Information provided by North Lanarkshire Council.
